

Network grants, Working life research 2022

Instructions for the Prisma application form Network grants

General information

Applications can be written in Swedish or English.

Please observe that spaces are included in all character limitations. If you intend to copy text into the application form, we recommend making sure that the number of characters, such as the character count in Microsoft Word, matches the number of characters in the form in Prisma. Underlying formatting can occur which causes the number of characters to be inconsistent with the character count in Microsoft Word. If it does not match, you must either try to clear all formatting by copying paragraphs into Notepad or similar, or type directly in Prisma.

It is not possible to add images in the text fields, these are instead added in the field Image uploader (under Project description). Include a visible reference inside the images so that you may reference them in the text.

Limitations

The same person can submit one application as main applicant.

Prisma

All applications are submitted through the [Prisma application and review system](#). For most of the required steps, user manuals are available. We urge you to consult these when writing your application.

- [Prisma user manual](#)
- [FAQ Prisma](#)
- [Prisma support](#)

Before writing your application, make sure the following conditions are met:

- You have created a personal account in Prisma
- All participating researchers have created personal accounts in Prisma
- Each participating researcher has stored personal data, CV and publications on their accounts
- Your administrating organisation has an organisational account in Prisma and has been approved as an administrating organisation at Forte. [Read more about Forte's criteria for administrating organisations »](#)

Basic information

Project title and abstract

Project title in Swedish (max 200 characters)

Project title in English (max 200 characters)

The title should be formulated so that the network's purpose is evident and so that laymen may understand. The project title is often used on its own and should therefore be formulated with care.

Abstract in Swedish (max 2 000 characters)

Abstract in English (max 2 000 characters)

The abstract should provide an informative description of the network as a whole. It should be able to stand on its own, which is why you should make no references to other parts of the application. It is also important that laymen can understand the abstract.

Reference number for programme grant

Enter the reference numbers for the programmes included in the application.

Time plan

Network grants are granted for a maximum of three years.

Subject classifications

Keywords

Provide 1-5 keywords for your project.

Forte's main and subareas

Choose a suitable main subject area and a subarea for your application. Forte reserves the right to reclassify your application.

Alternative subarea

You have the option of choosing an alternative subarea for your application. This subarea can have another main subject area. Forte reserves the right to reclassify your application.

Forte's areas of coordination

Forte is national coordinator for research in five research areas. Choose one of the areas if they apply to your application. If none are applicable for your project, choose the option no coordination area. Forte reserves the right to reclassify your application.

SCB codes

In order to facilitate future analysis of research funded by all Swedish research funding agencies, all applications are classified according to Statistics Sweden's standard. Select research topic in three levels.

Sustainable development goals

Classify your application according to the United Nations' Sustainable Development Goals. You can choose a maximum of three goals. [Read more about the Sustainable Development Goals »](#)

The Network**Network description***Description of the network (max 10 000 characters)*

Describe the planned network and its purpose, working methods and participants. Describe what the network wants to accomplish and achieve as well as the added value of the network. Networks that work for interdisciplinary or multidisciplinary cooperation and networks aimed at strengthening younger researchers in the field of working life are prioritised. Networks should have a broad composition in terms of subject competence, senior/junior researchers and gender.

Image uploader (max 4 MB/image)

Here you can upload images that illustrate parts of your project description. Include a visible reference in the image so that you can refer to it in the text. Allowed file extensions: JPG, PNG and GIF format.

Budget

Network grants are granted for maximum of three years. Give an account of how you plan to use the funds that you are applying for. **For budgetary reasons, the full amount must be stated in the column for 2022. Leave the remaining columns empty.** Total budget must not exceed SEK 500 000 (including OH).

Cost within the network*Salaries including social fees for administration*

In this call, we allow salary costs for administration of the network. Enter salary costs/estimated salary costs including social fees for personnel who will be salaried for administrating the network.

Running costs

Enter costs that relate to the network. Examples of costs that a network grant may cover:

- domestic travel and accommodation for network participants in connection with meetings
- production and distribution costs of newsletters
- costs for the creation of electronic networks, web sites and seminars

A network grant from Forte cannot be used to fund international travel or visiting researcher stays.

Create and name entries in the table so that it is clear what the grant will be used for.

Government institutions calculate their costs excluding VAT. For projects at non-governmental institutions, Forte will only reimburse VAT that constitutes a real cost for the project.

Total budget

Everything entered in the tables “Running costs” is automatically summarised in the table “Total budget”.

In this table, you fill in the indirect costs (OH). Report indirect costs as a separate item specifying amount per year. The model used for calculating the indirect costs should be the one used at your department.

Administrating organisation

In order for you to apply, your Swedish higher education institution (HEI) or research organisation must have been approved by Forte as an administrating organisation and created an organisational account in Prisma. The approved administrating organisations are listed as choices in Prisma. From there, you can select your HEI as administrating organisation and project site for your application. If your HEI/research organisation is missing as a choice in Prisma, please contact the organisation. When the call closes, your application will automatically be sent to your administrating organisation. The administrating organisation must then sign the application in Prisma within seven days.

Review panels

Select the review panel Network grant Working life research 2022.

Participating researchers

Invite participating researchers here. Participating researchers must have obtained a doctoral degree. All participating researchers must open personal accounts in Prisma and add their CV and the publications they want to use in the application. They also have to agree to their participation in the project before the call closes. If an invited researcher has not responded to the invitation in Prisma, the application cannot be submitted. Encourage your colleagues to open an account in Prisma well ahead of the call closing.

CV

All CV and publication details for applicants and participating researchers are stored on the respective researcher’s personal account. Under this heading, import CV-data from the personal account. The following limitations apply:

Educational history

- 1 doctoral degree (mandatory)
- 2 research educations
- 2 basic educations

Professional history

- 3 employments
- 3 post-doctoral assignments
- 3 research exchange assignments
- 3 interruptions in research

Merits and awards

- 3 associate professorships
- 10 supervised persons (5 for co-applicants)
- 5 research grants awarded in competition (3 for co-applicants)
- 3 awards and distinctions
- 3 other merits

Intellectual property

- 3 intellectual properties

Publications

Under this heading, each researcher imports publications from their personal account. The purpose of these publications is to support the research competence of the project leader and participating researchers. Applications are limited to ten publications per main applicant and five per co-applicant.

Check and register

Check and register your application here. The application cannot be submitted before all compulsory fields are filled in and no limitations are exceeded.

Contact information

If you have any questions about the call or how to fill in the application form, please contact:
